Low-Income Floridians Connected to Benefits in 2022-2023

Thanks to federal funding that supports efforts to find and enroll low-income people on Medicare into benefits they are eligible for, 448,097 low-income older and disabled Floridians received assistance that can help them to afford their prescription drugs and doctor visits.

This federal funding supports Florida's:

- State Health Insurance Assistance Program (SHIP)
- 11 Area Agencies on Aging (AAAs)
- 1 Benefits Enrollment Center (BEC)

These organizations help older adults making less than \$22,000 a year apply for:

- Medicare Part D Low-Income Subsidy (LIS/Extra Help)
- Medicare Savings Programs (MSPs)

Funding also supports BenefitsCheckUp®, a free online screening and enrollment tool.

Floridians in Need Found Help...

Thanks to previous federal funding, in 2022-2023:

- 135,097 Medicare beneficiaries and their caregivers in Florida received help with access to low-income benefits
- 313,000 Floridians used BenefitsCheckUp® to connect with benefits online

... But Far Too Many Are Still Missing Out

- 1.6 million Medicare beneficiaries in Florida are living at or below 150% of the federal poverty level and need help affording health care

Estimate taken from SHIP Tracking and Reporting System (STARS)

Kathy's Story

I am a SHINE volunteer in Lake County FL. We have a lot of low-income seniors who need information and help on their Medicare/Medicaid issues. I frequently call our MIPPA expert up in Gainesville with questions, as well as seeking to understand exactly what benefits my client is entitled to. These are people who live on the edge, most are not fluent with computers nor how to navigate the system to get answers. I do my counseling in the local libraries. I have left these sessions in tears after listening to their stories.
